While working in a prominent role at the Buffalo Express at a time when women rarely held leadership positions, playwright and journalist Marian de Forest conceived the idea of an organization that would bring together women in executive positions.

She envisioned a strong network that would help women reach their rightful places in the professions.

The name "ZONTA" is derived from a Lakhota (Teton Dakota), a language of the Native-American Sioux peoples, meaning "honest and trustworthy".

It was adopted in 1919 to symbolize the combined qualities of honesty and trust, inspiration, and the ability to work together for service and world understanding.
